COMBINED FORCES KILL FIRE IN ALAMO BOUNDS

Ninety Acres on State Land
and 50 Acres on Patented
Land Burned; Dangerous
Blaze.

Word was received here today by the forest service that the fire in the timber on state and private land within the boundaries of the Alamo national forest is out. The fire occurred on land east of Clouderoff. It was discovered by forest officers and was extinguished by the combined efforts of the forest service and the state land commission, after it had burned approximately 9 acres of timber on state land and 50 acres on the patented land of Leo Rogers. The fire was put under control the night of April 16.

The high winds of last week made the fire situation rather critical, and since this fire occurred last Thursday during the severe wind storm, it was very fortunate that the fire fighters were able to put it under control, or much greater damage would have occurred.
